

Discount Mountain Software Estore on Yahoo

This client from Denver had burnt his fingers with an IT service provider. He comes from legal background and his business objective was to develop an online store to sell legal software. His business is BBB accredited, affiliated to PriceGrabber.com and linked to NexTag.

Agenda:

Main agenda was to focus US locals needing legal software to meet their business compliance objectives according to market trend.

Satisnet.com Value Add:

Considering specific requirements of the client our technical team suggested use of RTML proprietary language exclusively used in Yahoo Store due to its scalability and robustness. Satisnet bring 15,000 hours plus experience in RTML.

- Complete Ecommerce portal in RTML with user-friendly UI and Navigation
- Affiliate setup with Pricegrabber.com
- Authenticate reviews on NexTag
- Get business accreditation from BBB.org
- Embed Yahoo cart to pick, shop, checkout, pay and get software shipped for free in US
- Customize Search by keyword functionality

Testimonial:

"I have worked with this provider on many projects and they are always excellent! They did an amazing job programming my yahoo store, and I have had many compliments from other yahoo store programmers on how good of a job they did! I am very satisfied with the quality of work and the great price that they gave me for this project. I would highly recommend this provider- especially if you are looking for yahoo store programming. They are one of the best!"

- M.L.

Recommendations:

1. The site could have a Live Chat Application for immediate support
2. The site could have mobile version to increase their product sales
